Nitric Boost

Advanced Circulatory Support for Optimal Health[•]

Nitric Boost Supplementation

Nitric Boost is designed to support circulatory health, promote energy metabolism, and promote robust antioxidant support.[•] By increasing nitric oxide production, the formula promotes vasodilation, supports healthy blood flow, and supports cardiovascular function.[•] The combination of essential vitamins, minerals, and natural extracts works synergistically to support healthy oxidative stress response and promote healthy inflammatory markers.[•]

Nitric Boost is a scientifically formulated supplement that addresses multiple aspects of circulatory health.⁺ This advanced formulation supports healthy nitric oxide production and optimal blood flow.⁺ Supplementation with Nitric Boost includes these benefits:

- Promotes healthy blood flow and oxygen delivery*
- Supports cardiovascular health*
- Promotes healthy inflammatory markers*
- Promotes powerful antioxidant support*
- Supports exercise performance and endurance*
- Supports muscle recovery and reduces delayed onset muscle soreness[•]
- Promotes overall immune function and well-being*

How Nitric Boost Works

Nitric Boost represents a comprehensive approach to circulatory health, leveraging the latest scientific research on nitric oxide production and cardiovascular wellness with the following nutrients.*

Vitamin D3 enhances calcium absorption in the intestines, which is crucial for bone density and immune modulation.[•] Vitamin D3 supports macrophage activity and healthy inflammatory markers, promoting overall immune function and bone health.^{•1,2,3}

Thiamin functions as a coenzyme in carbohydrate metabolism, aiding ATP production.[•] Thiamin is essential for nervous system health and supports cardiovascular function by maintaining proper nerve and muscle function.^{•4,5,6}

Vitamin B12 acts as a coenzyme in energy production and myelin synthesis. Vitamin B12 supports red blood cell formation, DNA synthesis, and overall cognitive function.^{47,8,9}

Magnesium participates in over 300 enzymatic reactions, including ATP production and muscle contraction.[•] Magnesium is vital for healthy nerve function, blood glucose control, and healthy blood pressure already in the normal range, offering broad-spectrum health benefits.^{•10,11,12}

How Nitric Boost Works Continued

Zinc is a critical cofactor for enzymes involved in DNA synthesis and immune function.⁺ Zinc promotes healthy T lymphocyte activity, providing antioxidant support and promoting healthy oxidative stress response.^{413,14}

Potassium is essential for intracellular fluid balance and nerve function. Potassium nitrate supports healthy nitric oxide production, promoting healthy vasodilation and optimal blood flow to support cardiovascular health. *15,16

Beet Root Extract is rich in nitrates that convert to nitric oxide, supporting healthy blood flow and oxygen delivery. Beet root extract supports optimal exercise performance and endurance.^{417,18,19}

Pomanox® Pomegranate Extract contains polyphenols with strong antioxidant properties. Promoting healthy oxidative stress response supports optimal endothelial function and cardiovascular health.+20,21,22

Montmorency Tart Cherry Extract is high in anthocyanins that support healthy oxidative stress response and healthy inflammatory markers.* Tart cherry extract inhibits cyclooxygenase enzymes, reducing delayed onset muscle soreness and promoting recovery. \$23,24,25

Pycnogenol® French Maritime Pine Bark Extract supports healthy nitric oxide production, promoting healthy vasodilation and optimal blood flow. Pycnogenol® further supports healthy oxidative stress response and healthy inflammatory markers. 426,27,28

Grape Seed Extract is rich in proanthocyanidins with powerful antioxidant properties.* Grape seed extract supports vascular function by promoting healthy endothelial nitric oxide synthase activity, promoting healthy inflammatory markers, and supporting overall cardiovascular health.^{+29,30}

Supplement Facts

Serving Size: 3 Capsules Servings Per Container: 30

	Amount Per S	erving	%DV*
Vitamin C (as magnesium ascorbate a	and zinc ascorbate	300 mg	333%
Vitamin D3 (as cholecalciferol) (from	lichen)	15 mcg	75%
Thiamin (as thiamin mononitrate)		100 mg	8,333%
Vitamin B12 (as adenosylcobalamin)		50 mcg	2,083%
Magnesium (as magnesium ascorbat	e)	120 mg	29%
Zinc (as zinc ascorbate)		7 mg	64%
Potassium (as potassium nitrate)		150 mg	3%
Beet Root Extract		375 mg	**
